The following abbreviations are used in the Heritage Schedules:

- Note:
- CAT = Category
  - INT = Interior as defined below

## KEY TO REASONS FOR SCHEDULING

The schedule of heritage objects, features or places in the Central Area Section of the Auckland District Plan lists all categories in which the item is assessed to have some significance. These categories are coded in the "Reasons" column of the schedule as follows:

- a) A capital letter (eg, A, D, etc) denotes that the scheduled heritage object, feature or place scored significantly (i.e. above the median) in this category.
- b) A lower case letter (eg, a, d, etc) denotes that the scheduled heritage object, feature or place has scored moderately (ie, below the median) in this category.

**The subject of each category of heritage object, feature or place is as follows:**

### Physical Characteristics

- A/a** Style
- B/b** Construction
- C/c** Age
- D/d** Architect/Designer/Originator
- E/e** Design
- F/f** Interior

### History: People/Events/Associations

- H/h** Events
- I/i** Social Context

**Environment**

- J/j** Continuity  
**K/k** Physical Context (setting)  
**L/l** Landmark Quality  
**M/m** Group Significance

**Integrity**

- N/n** Location  
**O/o** Intactness

For an explanation of the categories, criteria for listing and rules refer Part 10.

## DEFINITIONS

**INTERIOR**

Includes the whole or any nominated part of the interior of a building, object or place (as set out in Schedules A and A2 in Appendix 1) which is particularly relevant or valuable in demonstrating the heritage significance of a place, the alteration of which would detract from the inherent heritage significance and value of the place. Such items will be spaces, components and materials, all finishes and fixtures (but excluding unattached items such as furniture) which are original to the place and/or identifiable as having significant heritage value. Such items may be identified in an approved Conservation Plan or Heritage Inventory, and policies for future conservation, adaptation, and preservation identified in these documents shall apply.

**SITE SURROUNDS**

Site surrounds includes all the curtilage of the place which may be a part of the original design or which has developed in a manner which complements the place, the removal of which would detract from the inherent heritage significance and value. Site surround include all those things, such as trees, gardens, buildings and structures that are part of the heritage significance of the place and are located within the areas described above.

Unless otherwise specified in the Schedule in Appendix 1 as including additional lots, or part(s) of lots, site surrounds include all land within the title boundary.

Such otherwise specified dimensions and limits for some specific heritage places are included in the schedule in Appendix 1. The existence of such specific dimensions are indicated by an asterisk alongside the dot in the “surrounds” column and are detailed in the supplementary list.

## THE NEW ZEALAND HISTORIC PLACES TRUST REGISTER

This schedule is not the same as the New Zealand Historic Places Register for Auckland. It is a separate but parallel protection process. The District Plan list is in response to the Resource Management Act 1991, and the New Zealand Historic Places Register is in response to the Historic Places Act 1993. Since a heritage place may appear in either or both lists, care should be taken to ascertain and fulfil any obligations deriving from the place being included in either or both lists.

Note 1:

**THIS SCHEDULE DOES NOT INCLUDE PROTECTED ITEMS IN THE ISTHMUS OR THE HAURAKI GULF ISLANDS**

The location of the centre of the symbol representing a scheduled heritage object, feature or place on the Central Area Section of the Auckland District Plan special limitation maps, represents the general location of the centre of the item. However it should be noted that the full extent of the item may extend to sites other than that on which the symbols appear.

Any extended address (eg, Chancery Street 002-008 includes, all the street numbers between those given, on the same side of the street - ie, 002 - 008 includes 002, 004, 006, and 008.

Where appropriate, the scheduled item is identified by its original description, followed in brackets by any subsequent or current descriptions with the applicable dates.
