I / We support / oppose / seek amendments to the plan modification. The reasons for my / our views are:
 Note: if you generally support the plan modification but seek some amendments to it you should tick both the "support" and the "seek amendments" box. If you oppose the modification but seek amendments as an alternative to its decline, you should tick both the "oppose" and the "seek amendments" box.

I don't believe the access points to the shopping centre for traffic are adequate or well organised. The parking area is not large enough. Congestion around the shopping centre is already unacceptable and the proposals will only make it worse. The surrounding streets are already congested with parked cars, especially staff vehicles. Pedestrian access creates a danger to pedestrians as they are not separate from vehicle access.

I / We seek the following decision from the council (give precise details):
 Note: the decision requested from council should only relate to the content of the plan modification. Any matters raised which do not directly relate to the plan modification will be treated as being not "on" the plan modification or "outside the scope" of the plan modification and will not be considered.
