

I / We support / oppose / seek amendments to the plan modification. The reasons for my / our views are;

Note: if you generally support the plan modification but seek some amendments to it you should tick both the "support" and the "seek amendments" box. If you oppose the modification but seek amendments as an alternative to its decline, you should tick both the "oppose" and the "seek amendments" box.

There are significant issues with litter (including broken glass), parking and vehicle congestion in the area and I cannot see how these are being addressed by the proposal - indeed they will be exacerbated. I live in morningside and cross morningside Drive regularly - my experience of trying to cross it on foot / cycle is that it is already hazardous - I am unable to let my children attempt it alone - there are insufficient pedestrian crossings in the area and the mixed use of vehicles (business, industrial & personal) creates for a lot of people with a d. travel purpose for using the roadway - the Streets proposal will only heighten these issues by adding an increased number of 'shoppers' to the mix.

I / We seek the following decision from the council (give precise details):

Note: the decision requested from council should only relate to the content of the plan modification. Any matters raised which do not directly relate to the plan modification will be treated as being not "on" the plan modification or "outside the scope" of the plan modification and will not be considered.
