<p>The specific provision of the plan modification that my submission relates to is:</p> <p><u>The loss of residential character, open spaces and traffic. These will create a less healthy place to live. There will be less light and the vibrance of the surrounding areas will disappear due to to extra traffic &amp; cars. Crossing the road and catching the bus will become harder and less safe. The environment &amp; the social ecology of the neighbourhood will disappear and it would be replaced with a monstrous concrete building. Instead of open spaces we would have a huge, dominant, busy, traffic creating mall.</u></p> <p style="text-align: right;"><small>continued on reverse</small></p>	

I / We support  / oppose  / seek amendments  to the plan modification. The reasons for my / our views are;

Note: if you generally support the plan modification but seek some amendments to it you should tick both the "support" and the "seek amendments" box. If you oppose the modification but seek amendments as an alternative to its decline, you should tick both the "oppose" and the "seek amendments" box.

I oppose this plan due to the loss of residential character and sense of community, and impact on my, and my communities, socio-ecological environment, that would result from it. The building would create a less healthy living environment due to the loss of sunlight & increased traffic & noise. The area will become less safe when walking around and mean there is less open space. I moved here so I could catch the bus to University and the extension of the mall would make this harder, slower & much less safe.

I / We seek the following decision from the council (give precise details):

Note: the decision requested from council should only relate to the content of the plan modification. Any matters raised which do not directly relate to the plan modification will be treated as being not "on" the plan modification or "outside the scope" of the plan modification and will not be considered.

decline  / accept  / accept with amendments

I oppose the plan in its entirety. The effect of it would be far reaching and so I ask the council to decline it due to the detrimental effect it would have on the health of the people in our community.

I have attached additional information Yes No

I / We wish to be heard at the council planning hearing Yes No

I / We would be prepared to present a joint case at the hearing with any others making a similar submission Yes No
