The specific provision of the plan modification that my submission relates to is: <u>oppose the rezoning of residential to business 8.</u> <u>Huge planned building will cause shading.</u> <u>Traffic volumes - are too much already.</u> <u>Noise.</u> <u>Impact on other residential shopping centres -</u> <u>Excessive height - way above council guide lines.</u>	
continued on reverse	

I / We support / oppose / seek amendments to the plan modification. The reasons for my / our views are;

Note: if you generally support the plan modification but seek some amendments to it you should tick both the "support" and the "seek amendments" box. If you oppose the modification but seek amendments as an alternative to its decline, you should tick both the "oppose" and the "seek amendments" box.

We have lived in this residential street for 22 years and oppose the rezoning - residential streets - should be residential streets - we moved here from the west to be closer to our employment - yes St Lukes Mall was here - when we moved - but we never dreamed it may one day be directly across the road from us. The building will cause shading, the intended Exeter St extension will add to the already increased traffic flows - with the car lights shining onto our bedroom windows - a larger car park means increased noise from car alarms - the excessive height is just not acceptable - we have been denied parking outside our home from - 9-11 am 7 days for several years - ~~months~~.

I / We seek the following decision from the council (give precise details):

Note: the decision requested from council should only relate to the content of the plan modification. Any matters raised which do not directly relate to the plan modification will be treated as being not "on" the plan modification or "outside the scope" of the plan modification and will not be considered.

decline / accept / accept with amendments
