I / We support  / oppose  / seek amendments  to the plan modification. The reasons for my / our views are:

Note: if you generally support the plan modification but seek some amendments to it you should tick both the "support" and the "seek amendments" box. If you oppose the modification but seek amendments as an alternative to its decline, you should tick both the "oppose" and the "seek amendments" box.

I oppose it because traffic is already of too high a volume in this area. It affects the traffic trying to get off the motorway at peak times and an increase in traffic volume would make this worse. An increase in traffic will also impact on residents and leads to unsafe environments particularly for children and the elderly.

I / We seek the following decision from the council (give precise details):

Note: the decision requested from council should only relate to the content of the plan modification. Any matters raised which do not directly relate to the plan modification will be treated as being not "in" the plan modification or "outside the scope" of the plan modification and will not be considered.
