

PART 1	STRUCTURE
--------	-----------

STRUCTURE

This Section of the District Plan contains a number of parts. These set out the resource management principles upon which the Plan is based, the attributes of the District which the Plan provisions seek to protect and enhance, the techniques to be used and the particular provisions relating to activities within the urban part of the District.

Importantly, Section One, *General*, of the District Plan sets out a vision and strategy for the future. This vision underpins all the subsequent matters set out in the parts following and in Sections Two and Three of the Plan and is the principal criterion by which the achievement of the strategy can be measured.

Throughout the Urban Section of the District Plan, both as a whole and in respect of each part, a common structure has been used to set out the matters under consideration (with the exception of Parts 16 and 17). The adopted structure is as follows:

1. *Introduction*
2. *Overview*
3. *Resource Management Issues*
4. *Resource Management Strategy*
5. *Outcomes*
6. *Objectives and Policies*
7. *Explanation*
8. *Rules*
