I/We support the submission of:

Mr George Medland
Gt Barrier Island

Submission 46/1

I/We support are: the submission in its entirety for this plan change.

The reasons for my/our support to the above submissions are:

Unformed paper roads on GBI currently carry the same rules and restrictions as the surrounding land units and the failure to date of Council to obtain a consent to form a small portion of Jennys Road demonstrates that this plan rule is not workable and needs to be changed. Whereas the land usage of road reserve in a plan is that of a road and as such should not carry the onerous restrictions, conditions and huge costs that are placed on consent applicants under the current rules.

I/We seek the whole submission be allowed for a plan change.

I/We wish to be heard at the council planning hearing Yes No

I/We would be prepared to present a joint case at the hearing with any others making a similar submission. Yes No
