I / We support the submission of Arthur Harris (Submission No. 340/1):
Address: 1a Beresford Street, Bayswater, North Shore City.

The Particular Parts of the submission I / we support are:

The thrust of the submission but not to the extent of abolition of the RBCA. Due to the lack on consultation when it was established, it should be comprehensively reviewed with full involvement of the RB community.

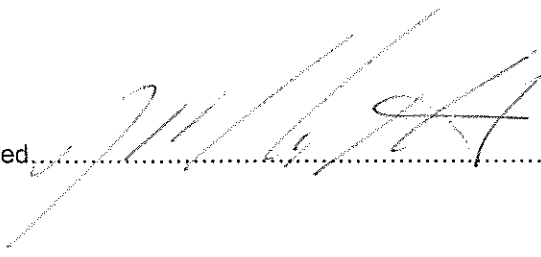

The Reasons for my / our support to the above submission are:

While the Rocky Bay Conservation Area concept attracts a level of community support as a concept, the way it has been structured and applied is not supported. It requires detailed consultation with that community, especially in regard to mechanisms to be applied within it to achieve the conservation objectives and the need for much more sensitive and informed application via for example some sort of classification system as with historic buildings.

I / We seek... The whole submission be allowed to the extent qualified above.

I / We wish to be heard at the council hearing.

I / We would be prepared to present a joint case at the hearing with any others making a similar submission.
