Submission No. 150 / 1

The particular parts of the above submission which we oppose are:

(clearly indicate which parts of the original submission you support or oppose, together with any relevant provisions of the proposal)

Submission 150: Amend 4.5.3.2.f

"The outdoor use of the venue does not exceed six events which use electronically amplified entertainment in any 12 month period".

To

"The outdoor use of the venue does not exceed 12 events which use electronically amplified entertainment outside the months of December to May".

The reasons for our opposition to the above submission are:

Any outdoor event with electronically amplified sound will cause intrusion in this quiet secluded rural location. Amplified sound carries long distances when the natural ambient background noise is very low.

Six events up to 3 days each in any year will give considerable disturbance to neighbours who have purchased property in order to have peace and tranquility and a restful lifestyle. More events would make life quite unbearable.

We seek the whole submission be disallowed

We wish to be heard at the council planning hearing **YES**

We would be prepared to present a joint case at the hearing with any others making a similar submission **Yes**
