Re: Proposed Hauraki Gulf Islands Section 2006

Name: Peter Lumsden

Address for correspondence: 31 Omiha Rd, Rocky Bay, Waiheke Island

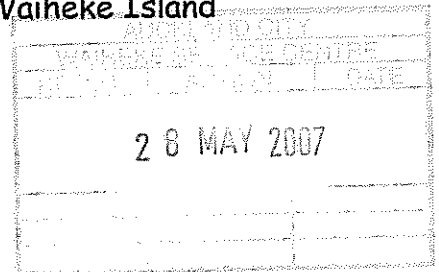

Tel: 372 8350

I support the submission of:

John Neville Watson

43 Kennedy Rd, Surfdale, Waiheke Island

Submission # 154

The particular parts of the submission I support are:

1. The conservation zone be applied to Arran Bay, Waiheke Island
2. The proposed conservation zone for Rocky Bay be modified to a few properties.

The reasons for my support to the above submission are:

1. It makes more sense to accord the conservation zone to the first residential subdivision on the Island, and it better reflects Paragraph 1 of the Character Statement for Rocky Bay (... foundation settlement ...founded away from other urban areas ...and retaining intact the crucial physical and social components of 'place');
2. The majority of the 70-odd properties in the proposed Rocky Bay zone are too diverse in architectural style and age (some being built as recently as 2005). However, as the Submitter outlines, there are a few properties that do remain relatively unchanged, and if the owners were consenting, then these could be given heritage or conservation status.

I seek:

The whole submission be allowed.

I wish to be heard at the council planning hearing.

I would be prepared to present a joint case with others making a similar submission.

Signed:
