I **support** the submission of:

Waiheke Community Board

Submission number: **1055**

The particular parts of the above submission which I **support** are:

Parts 8 – 11 relating to Noise - Section 10c.5.4

The reasons for my support for the above submission are:

The adoption of Isthmus standards for permitted noise levels is not appropriate for the small residential communities on Waiheke Island.

An increase in noise levels goes against the stated goals of the proposed District Plan to maintain existing background noise levels and to maintain amenity.

I seek part of the submission be allowed.

I wish to be heard at the council planning hearing

I would be prepared to present a joint case at the hearing with any others making a similar submission.
