I/We support the submission of: John & Jenni Ogden relating to Part 10c.5.1  
Indigenous Vegetation Protection.  
Submission No: 3050/1

**The particular parts of the above submission which I/we support are:**  
Item 1 relating to solar energy and heating i.e. Include in the plan as a permitted  
activity provisions for pruning or removing trees which cast shade on photovoltaic  
and water heating solar panels or any part of a dwelling.

**The reasons I/We support above submission:** There is no reticulated power on  
Great Barrier and each household has to provide for their own energy and heating  
needs.

**Section 5 of the RMA** places particular emphasis on the need to provide for  
adequate energy supplies for communities and future generations "sustainable  
management" and **section 7 of the RMA** relates to (ba) "the efficiency of end use  
energy. (i) the effects of climate change" (j) "the benefits to be derived from the use  
and development of renewable energy". Renewable solar power and water heating  
meet these RMA provisions.

I/We seek Part 1 of the submission be allowed.

I/We wish to be heard at the council planning hearing Yes  No

I/We would be prepared to present a joint case at the hearing  
with any others making a similar submission. Yes  No
