**I/We support the submission of:** John & Jenni Ogden relating to Part 10c.5.1  
Indigenous Vegetation Protection.  
Submission No: 3050/1

**The particular parts of the above submission which I/we support are:**  
Item 1 relating to solar energy and heating i.e. Include in the plan as a permitted activity provisions for pruning or removing trees which cast shade on photovoltaic and water heating solar panels or any part of a dwelling.

**The reasons I/We support above submission:** There is no reticulated power on Great Barrier and each household has to provide for their own energy and heating needs.

**Section 5 of the RMA** places particular emphasis on the need to provide for adequate energy supplies for communities and future generations "sustainable management" and **section 7 of the RMA** relates to (ba) "the efficiency of end use energy. (i) the effects of climate change" (j) " the benefits to be derived from the use and development of renewable energy". Renewable solar power and water heating meet these RMA provisions.

**I/We seek Part 1 of the submission be allowed.**

I/We wish to be heard at the council planning hearing Yes  No

I/We would be prepared to present a joint case at the hearing with any others making a similar submission. Yes  No
