I / We support / oppose the submission of: *James Robertson*
(name and address of original submitter and submission number of original submission if available) *179 Shoel Bay Road Topyaia*

Earth works are too legislated and are often harmful. It seems it is only included to hinder work and create council income. Sedimentation is natural process too.

Submission number: *2142*

The particular parts of the above submission which I / we support / oppose are:
(clearly indicate which parts of the original submission you support or oppose, together with any relevant provisions of the proposal)

Barrier is not an urban environment. There is room for earth movement. Adds cost to works. Sedimentation is not an issue unless close to water way. An over played issue.

The reasons for my / our support or ~~opposition~~ to the above submission are:

Earth work liabilities and controls need to be reviewed. This submission sensibly opens up the issue of over regulation of earth works on rural Great Barrier IS.

I / We seek

- the whole submission be allowed
- the whole submission be disallowed
- part of the submission be allowed
- part of the submission be disallowed

I / We wish to be heard at the council planning hearing	Yes <input checked="" type="checkbox"/>	No
I / We would be prepared to present a joint case at the hearing with any others making a similar submission	Yes	No
