The specific provision that my submission relates to is:

Note: clearly identify the particular paragraph, objective, policy, rule or map.

The need for the planning map zones / land form designations to be accurate and comparable.

There are opinionated emotionally driven zone ~~placements~~ placements. These need to be based on fact.

In accurate maps + zones as a result to land theft.

The rights and interests of land owners is diminishing all the time. There needs to be land use opportunities + initiatives, and productive land use encouragement.

I Colleen O'Shea support this submission
