Re: Auckland City District Plan – Proposed Hauraki Gulf Islands Section 2006

A small number of typographical errors in Federated Farmers' further submission to the Auckland City District Plan – Proposed Hauraki Gulf Islands Section 2006 have come to light. The errors relate to the identification of the primary submissions in the Schedule that formed part of the submission.

Page 11 No. 100 Submission Reference 717/3 should be Submission Reference 713/3
Page 33 No. 382 Submission Reference 299/3 should be Submission Reference 2999/3
Page 37 No. 443 Submission Reference 3531/1 Name of Submitter should be Hans Steingass and Gabriele Grebhan

Could you please make the appropriate corrections to the further submission.

Yours faithfully

Richard Gardner
Senior Policy Advisor

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
1	22/1	George S H Medland	Support	The request to provide for the farming on kanuka and manuka up to any height and size for firewood, oil or bio-fuel production on Great Barrier.	The reasons stated in the original submission. Normal farming activities should be provided for as permitted activities in rural areas.	Allow
2	23/1	George S H Medland	Support	The request to provide as of right for the making of farm tracks.	The reasons stated in the original submission. Normal farming activities should be provided for as permitted activities in rural areas.	Allow
3	24/1	George S H Medland	Support	The request to provide as of right for the making of farm drains.	The reasons stated in the original submission. Normal farming activities should be provided for as permitted activities in rural areas.	Allow
4	25/1	George S H Medland	Support	The request to provide as of right for keeping clear or reclearing reverting pasture land.	The reasons stated in the original submission. Normal farming activities should be provided for as permitted activities in rural areas.	Allow
5	26/1	George S H Medland	Support	The request to provide as of right for the cutting of kanuka and manuka for private firewood use.	The reasons stated in the original submission. Normal farming activities should be provided for as permitted activities in rural areas.	Allow
6	43/1	Robert P Chisholm	Support	The request to provide for farm worker accommodation as a permitted activity	The reasons stated in the original submission.	Allow
7	43/2	Robert P Chisholm	Support	The request to provide for farm worker accommodation as a permitted activity	The reasons stated in the original submission.	Allow
8	63/1	Helen O'Shea	Support	The request for a more flexible and relaxed approach to the rules with regards to vegetation clearance, particularly in regards to domestic firewood for Great Barrier.	The reasons stated in the original submission.	Allow
9	93/1	Michael P J O'Shea	Support	The request for a total rethink on wetland systems and dune systems and a more practical commonsense approach to the rules governing private titles.	The reasons stated in the original submission. The provision takes no account of the rights of the private owners of land to use that land.	Allow
10	124/1	Anja Zillig	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
11	124/3	Anja Zillig	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
12	129/4	Dorothy M White	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certain block sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
13	130/4	Diana V Simpson	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable forestry and firewood harvesting as a discretionary activity on certain block sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
14	132/4	John Kjargaard	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable forestry and firewood harvesting as a discretionary activity on certain block sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
15	156/3	Priscilla A O H Tobin	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
16	158/1	Priscilla A O H Tobin	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
17	160/1	Janet Anderson	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
18	163/3	Janet Anderson and R W Von Reubendale	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
19	165/1	R W Von Reubendale	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
20	168/3	Judith Phillips	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
21	169/1	Judith Phillips	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies.	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
22	172/4	Sylvia K Roberts	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
23	237/4	Doreen J Scott	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
24	241/4	Arthur Reid	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
25	242/4	Aleshia Reid	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
26	243/4	Freda L Reid	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
27	244/4	Sharon H Reid	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
28	270/4	Stephanie A Guthrie	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
29	271/4	Mrs Rebecca Park	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
30	272/4	Buster P Park	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
31	274/4	Gael Johnson	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting, and for sustainable foresting and firewood harvesting as a discretionary activity on certainblock sizes throughout the island subject to owners signing up to one range of management plans which would be included in the Plan.	The reasons stated in the original submission.	Allow
32	275/4	Judy Gilbert	Support	The request for that the Plan provide for a sensible, practical solution to clearance of vegetation / bush and selected firewood harvesting on Great Barrier, for commercial / personal domestic firewood harvesting.	The reasons stated in the original submission.	Allow
33	300/1	Susi Newborn	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
34	315/1	Kevin and Susan Smith	Oppose	The request that horticulture not be a permitted activity	The proposal is inappropriate, does not promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands, and takes no account of the rights of land owners to use their land.	Disallow
35	323/3	Medlands Limited	Support	The request that the ridgeline rules be removed	The reasons stated in the original submission. Ridgelines may be the most appropriate place to conduct certain farming activities.	Allow
36	370/1	Lynne Stewart	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
37	526/3	Thumb Point Station Limited	Support	The request to alter clause 4.2 to require discretionary activity status for activities not provided for	The reasons stated in the original submission. Practicable provision for non-standard farming activities needs to be made in the Plan.	Allow
38	526/7	Thumb Point Station Limited	Support	The request to remove the control over exotic trees from the Plan.	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
39	526/8	Thumb Point Station Limited	Support	The request to allow farming as a permitted activity within landform 6 (regenerating slopes) for existing farming operations that were operating prior to the notification of the Plan	The reasons stated in the original submission. Practicable provision needs to be made for normal farming activities to take place as permitted activities in rural areas.	Allow
40	526/9	Thumb Point Station Limited	Support	The request to extend the rural property management plan provision to additional landforms including landforms 1 (coastal cliffs and slopes), 2 (dunes systems and sand flats) and 4 (wetland systems) to recognise large lots which cover multiple landforms and which require an integrated and cohesive management plan for the entire property	The reasons stated in the original submission.	Allow
41	526/15	Thumb Point Station Limited	Support	The request to amend Rule 8.5.1 to ensure that vegetation removal from slopes greater than 18 degrees as part of an approved rural management plan for vineyard or pastoral productive purposes is provided for.	The reasons stated in the original submission.	Allow
42	526/18	Thumb Point Station Limited	Support	The request to delete all reference to prohibited activities in table 7.1	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
43	526/19	Thumb Point Station Limited	Support	The request to delete all reference to prohibited activities in table 7.2	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
44	527/3	Man O'War Farm Limited	Support	The request to alter clause 4.2 to require discretionary activity status for activities not provided for	The reasons stated in the original submission. Practicable provision for non-standard farming activities needs to be made in the Plan.	Allow
45	527/7	Man O'War Farm Limited	Support	The request to remove the control over exotic trees from the Plan.	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow
46	527/8	Man O'War Farm Limited	Support	The request to allow farming as a permitted activity within landform 6 (regenerating slopes) for existing farming operations that were operating prior to the notification of the Plan	The reasons stated in the original submission. Practicable provision needs to be made for normal farming activities to take place as permitted activities in rural areas	Allow
47	527/9	Man O'War Farm Limited	Support	The request to extend the rural property management plan provision to additional landforms including landforms 1 (coastal cliffs and slopes), 2 (dunes systems and sand flats) and 4 (wetland systems) to recognise large lots which cover multiple landforms and which require an integrated and cohesive management plan for the entire property	The reasons stated in the original submission.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
48	527/15	Man O'War Farm Limited	Support	The request to amend Rule 8.5.1 to ensure that vegetation removal from slopes greater than 18 degrees as part of an approved rural management plan for vineyard or pastoral productive purposes is provided for.	The reasons stated in the original submission.	Allow
49	527/18	Man O'War Farm Limited	Support	The request to delete all reference to prohibited activities in table 7.1	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
50	527/19	Man O'War Farm Limited	Support	The request to delete all reference to prohibited activities in table 7.2	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
51	528/3	Huruhe Station Limited	Support	The request to alter clause 4.2 to require discretionary activity status for activities not provided for	The reasons stated in the original submission. Practicable provision for non-standard farming activities needs to be made in the Plan.	Allow
52	528/7	Huruhe Station Limited	Support	The request to remove the control over exotic trees from the Plan.	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow
53	528/8	Huruhe Station Limited	Support	The request to allow farming as a permitted activity within landform 6 (regenerating slopes) for existing farming operations that were operating prior to the notification of the Plan	The reasons stated in the original submission. Practicable provision needs to be made for normal farming activities to take place as permitted activities in rural areas	Allow
54	528/9	Huruhe Station Limited	Support	The request to extend the rural property management plan provision to additional landforms including landforms 1 (coastal cliffs and slopes), 2 (dunes systems and sand flats) and 4 (wetland systems) to recognise large lots which cover multiple landforms and which require an integrated and cohesive management plan for the entire property	The reasons stated in the original submission.	Allow
55	528/15	Huruhe Station Limited	Support	The request to amend Rule 8.5.1 to ensure that vegetation removal from slopes greater than 18 degrees as part of an approved rural management plan for vineyard or pastoral productive purposes is provided for.	The reasons stated in the original submission.	Allow
56	528/18	Huruhe Station Limited	Support	The request to delete all reference to prohibited activities in table 7.1	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
57	528/19	Huruhe Station Limited	Support	The request to delete all reference to prohibited activities in table 7.2	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
58	529/3	Man O'War Station Limited	Support	The request to alter clause 4.2 to require discretionary activity status for activities not provided for	The reasons stated in the original submission. Practicable provision for non-standard farming activities needs to be made in the Plan.	Allow
59	529/7	Man O'War Station Limited	Support	The request to remove the control over exotic trees from the Plan.	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
60	529/8	Man O' War Station Limited	Support	The request to allow farming as a permitted activity within landform 6 (regenerating slopes) for existing farming operations that were operating prior to the notification of the Plan	The reasons stated in the original submission. Practicable provision needs to be made for normal farming activities to take place as permitted activities in rural areas	Allow
61	529/9	Man O' War Station Limited	Support	The request to extend the rural property management plan provision to additional landforms including landforms 1 (coastal cliffs and slopes), 2 (dunes systems and sand flats) and 4 (wetland systems) to recognise large lots which cover multiple landforms and which require an integrated and cohesive management plan for the entire property	The reasons stated in the original submission.	Allow
62	529/15	Man O' War Station Limited	Support	The request to amend Rule 8.5.1 to ensure that vegetation removal from slopes greater than 18 degrees as part of an approved rural management plan for vineyard or pastoral productive purposes is provided for.	The reasons stated in the original submission.	Allow
63	529/18	Man O' War Station Limited	Support	The request to delete all reference to prohibited activities in table 7.1	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
64	529/19	Man O' War Station Limited	Support	The request to delete all reference to prohibited activities in table 7.2	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
65	539/3	South Coast Station Limited	Support	The request to alter clause 4.2 to require discretionary activity status for activities not provided for	The reasons stated in the original submission. Practicable provision for non-standard farming activities needs to be made in the Plan.	Allow
66	539/7	South Coast Station Limited	Support	The request to remove the control over exotic trees from the Plan.	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow
67	539/8	South Coast Station Limited	Support	The request to allow farming as a permitted activity within landform 6 (regenerating slopes) for existing farming operations that were operating prior to the notification of the Plan	The reasons stated in the original submission. Practicable provision needs to be made for normal farming activities to take place as permitted activities in rural areas	Allow
68	539/9	South Coast Station Limited	Support	The request to extend the rural property management plan provision to additional landforms including landforms 1 (coastal cliffs and slopes), 2 (dunes systems and sand flats) and 4 (wetland systems) to recognise large lots which cover multiple landforms and which require an integrated and cohesive management plan for the entire property	The reasons stated in the original submission.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
69	539/15	South Coast Station Limited	Support	The request to amend Rule 8.5.1 to ensure that vegetation removal from slopes greater than 18 degrees as part of an approved rural management plan for vineyard or pastoral productive purposes is provided for.	The reasons stated in the original submission.	Allow
70	539/18	South Coast Station Limited	Support	The request to delete all reference to prohibited activities in table 7.1	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
71	539/19	South Coast Station Limited	Support	The request to delete all reference to prohibited activities in table 7.2	The reasons stated in the original submission. The use of the prohibited activity category for rural activities is inappropriate.	Allow
72	548/1	Inga Muller	Support	The request that council does not introduce the protection of exotic trees in the Plan.	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow
73	558/1	Collow Family Trust and Fogarty Trust Agent	Support	The request to amend clause 7.11.3 to ensure that only sites of actual significance are included.	The reasons stated in the original submission.	Allow
74	558/2	Collow Family Trust and Fogarty Trust Agent	Support	The request to Amend clause 7.11.4.1 to ensure that restricted discretionary activities recognise the practical aspects of protecting, managing, and restoring scheduled sites.	The reasons stated in the original submission.	Allow
75	558/3	Collow Family Trust and Fogarty Trust Agent	Support	The request to Amend clause 7.11.4.1 to ensure that discretionary activities recognise the practical aspects of protecting, managing, and restoring scheduled sites.	The reasons stated in the original submission.	Allow
76	560/5	Church Bay Farm Limited	Support	The request to delete the requirement that a financial contribution be paid for any activity having permitted activity status under the Plan	The reasons stated in the original submission.	Allow
77	560/7	Church Bay Farm Limited	Support	The request to retain pastoral farming as a permitted activity.	The reasons stated in the original submission. Practicable provision needs to be included in the Plan for farming activities.	Allow
78	560/12	Church Bay Farm Limited	Support	The request to amend the definition of "water body" to that provided in the RMA.	The reasons stated in the original submission.	Allow
79	560/13	Church Bay Farm Limited	Support	The request to amend the definition of "wetland" to that provided in the RMA.	The reasons stated in the original submission.	Allow
80	560/14	Church Bay Farm Limited	Support	The request to provide for a 10m protection yard for water bodies and wetlands in table 10c.4.	The reasons stated in the original submission.	Allow
81	560/18	Church Bay Farm Limited	Support	The request to amend the definition of pastoral farming to provide as follows: "Pastoral farming means the growing of grass and fodder crops on which stock are grazed, as well as the use of accessory buildings and land for ancillary activities. It does not include the grazing of deer or goats."	The reasons stated in the original submission. Many normal farming activities require the use of accessory buildings.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
82	567/1	Peter Andriksen	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
83	584/1	Charles and Ann Stevenson	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
84	590/3	Elizabeth Waters	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
85	618/65	David Parkinson and Dee Crawford	Support	The request that the ridgeline provisions in clause 10c.4.7 should be deleted.	The reasons stated in the original submission. Ridgelines may be the most appropriate place to conduct certain farming activities.	Allow
86	620/3	Marina Alonso-Barth	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
87	633/1	Marina Alonso-Barth	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
88	637/1	Jyoti Addison	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
89	644/3	Joanna Biss	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
90	660/1	Leith Durcan	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
91	670/3	Eileen Boghurst	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
92	672/7	Eileen Boghurst	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
93	682/3	Dee Gulliver	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
94	683/1	Dee Gulliver	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
95	690/3	Allen E Davies	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
96	695/1	Carol Weitzel	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
97	702/1	Geoffrey Tong	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
98	705/3	Geoffrey Tong	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
99	707/3	Geoffrey Tong	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
100	717/3 713/3	Clive Henderson	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
101	717/3	Carol Weitzel	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
102	725/1	Simon Griffiths	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
103	729/3	Simon Griffiths	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
104	739/3	Murray Pilcher	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
105	742/1	Murray Pilcher	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
106	753/15	Robyn Ann Jones	Support	The request that, with regard to clause 10c.5.1.1, manuka not be protected	The reasons stated in the original submission. Practicable provision needs to be included in the Plan for the removal of scrub.	Allow
107	753/16	Robyn Ann Jones	Support	The request that exotic trees not be protected.	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow
108	778/1	David Waters	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
109	800/1	Rebecca Low	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
110	800/1	Rebecca Low	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
111	809/1	Jerry Stewart	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies.	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
112	811/3	Jerry Stewart	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
113	817/1	Peter Young	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
114	820/3	Peter Young	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
115	821/15	Waiheke Island Practice Support Group	Support	The request that exotic trees not be protected	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow
116	821/17	Waiheke Island Practice Support Group	Support	The request that kanuka not be protected	The reasons stated in the original submission. . Practicable provision needs to be included in the Plan for the removal of scrub.	Allow
117	826/1	Sharon A O'Brien	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
118	829/3	Sharon A O'Brien	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
119	842/1	Poppy Sibthorpe	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
120	845/3	Poppy Sibthorpe	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
121	868/3	Anne M Sweeney	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
122	876/1	Anne M Sweeney	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
123	883/1	Linda Burroughs	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
124	894/1	Judith G M von Madarasz	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
125	897/4	Judith G M von Madarasz	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
126	904/3	Carla Jehle	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
127	909/1	Carla Jehle	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
128	922/3	Patsy Blackstock	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
129	938/1	Daphne Mitten and Mikee Knuckey	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
130	939/3	Daphne Mitten and Mikee Knuckey	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
131	941/38	Vector Limited	Oppose	The request that table 7.1 be adopted as notified.	The Table does not provide for the sustainable use of productive farmland.	Disallow
132	941/39	Vector Limited	Oppose	The request that table 7.2 be adopted as notified.	The Table does not provide for the sustainable use of productive farmland.	Disallow
133	942/5	Katherine M and Emma J Waterhouse	Oppose	The request to prohibit dogs from all riparian areas	The submitter's request is not practicable in productive rural areas.	Disallow
134	954/3	Ping Chuen Lee	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
135	962/1	Ping Chuen Lee	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
136	1013/3	Lynette Reed	Oppose	The request that no building be allowed on ridgelines whatsoever	The submitter's request is not practicable in productive rural areas.	Disallow
137	1022/1	Lynette Reed	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
138	1023/3	Lynette Reed	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
139	1027/2	Colin and Christine Beardon	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
140	1028/1	Hunky Dory Company Limited	Support	The request that, before imposing a restrictive designation on privately owned land, an extensive ecological survey be undertaken to justify the significance of specific sites and to exactly delineate the extent of the designation, and that existing cleared areas, roads, gardens, house sites and woodlots be excluded.	The reasons stated in the original submission.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
141	1028/2	Hunky Dory Company Limited	Support	The request that the entire clause 7.11 should be revised	The reasons stated in the original submission.	Allow
142	1093/6	New Zealand Winegrowers	Support	The request to amend point 1 of clause 2.5.8	The reasons stated in the original submission.	Allow
143	1093/9	New Zealand Winegrowers	Support	The request to amend clause 3.3.3	The reasons stated in the original submission.	Allow
144	1093/16	New Zealand Winegrowers	Support	The request to delete the requirement that a financial contribution be paid for any activity having permitted activity status under the Plan.	The reasons stated in the original submission. The RMA makes no provision for financial contributions to be payable on permitted activities.	Allow
145	1093/24	New Zealand Winegrowers	Support	The request to retain clause 10a.4.3 Objective as currently worded but substitute "ancillary activities" for "non-productive activities" throughout.	The reasons stated in the original submission. The proposed wording is clearer in meaning and intent.	Allow
146	1093/25	New Zealand Winegrowers	Support	The request to amend clause 10a.4.4 resource management strategy and insert a new paragraph as follows: "Life style block size development occurring within alluvial flat areas must recognise and accept the existence of activities, such as pastoral farming and horticultural activities and any associated effect of such permitted rural productive activities.	The reasons stated in the original submission. Appropriate provision needs to be made in the Plan to cover reverse sensitivity issues that arise in rural situations.	Allow
147	1093/28	New Zealand Winegrowers	Support	The request to amend clause 10a.6.2 Resource management issues by inserting at 1: "... such as pastoral farming and horticulture and their ancillary activities, to establish ..."	The reasons stated in the original submission. The proposed wording is clearer in meaning and intent.	Allow
148	1093/48	New Zealand Winegrowers	Support	The request to exempt horticultural and agricultural activities from complying with the existing earthworks controls in the Plan.	The reasons stated in the original submission. Many rural activities involve earthworks, and practicable provision needs to be made in the Plan for those activities to be undertaken.	Allow
149	1094/4	PRT and D Taylor	Support	The request to delete the requirement that a financial contribution be paid for any activity having permitted activity status under the Plan.	The reasons stated in the original submission. The RMA makes no provision for financial contributions to be payable on permitted activities.	Allow
150	1100/5	Waiheke Island Airpark Resort Limited	Support	The request that Clause 4.2 be altered to require discretionary activity status for activities not provided for.	The reasons stated in the original submission. Practicable provision for non-standard farming activities needs to be made in the Plan.	Allow
151	1100/6	Waiheke Island Airpark Resort Limited	Support	The request to remove the control over exotic trees from the Plan	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow
152	1132/1	Gulf District Plan Association Incorporated	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
153	1149/3	Gulf District Plan Association Incorporated	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
154	1190/16	Lapp and Toft Architecture	Support	The request that exotic trees not be protected.	The reasons stated in the original submission. The productive value of land in rural areas outweighs the value of any amenity that exotic trees may provide.	Allow
155	1217/1	Penny Browne	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	
156	1269/1	The Jack Kennedy Trust	Support	The request that grazing by heavy animals be deleted from table 7.1 as it relates to management group types C and D.	The reasons stated in the original submission. The proposed restriction takes no account of land owners' rights to use their land.	Allow
157	1269/2	The Jack Kennedy Trust	Support	The request that grazing by heavy animals be deleted from table 7.2 as it relates to management group types C and D.	The reasons stated in the original submission. The proposed restriction takes no account of land owners' rights to use their land.	Allow
158	1269/3	The Jack Kennedy Trust	Support	The request that grazing by heavy animals in management group types C and D be a permitted activity in table 7.1.	The reasons stated in the original submission. The proposed restriction takes no account of land owners' rights to use their land.	Allow
159	1269/4	The Jack Kennedy Trust	Support	The request that grazing by heavy animals in management group types C and D be a permitted activity in table 7.2.	The reasons stated in the original submission. The proposed restriction takes no account of land owners' rights to use their land.	Allow
160	1292/3	Charles Walsh	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
161	1295/1	Charles Walsh	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
162	1313/3	Nicola A Wimsett	Support	The request for the inclusion of options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
163	1316/1	Nicola A Wimsett	Support	The request to amend clause 7.11.1 issues	The reasons stated in the original submission.	Allow
164	1340/1	Paul Downie	Support	The request that provision be made for certain activities that constitute normal farming practice to be permitted activities.	The reasons stated in the original submission. Normal farming activities such as those described in the primary submission should be specified as permitted activities, otherwise farming becomes impractical.	Allow
165	1349/5	Caroline de Latour	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
166	1382/5	Leeann Sanderson	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
167	1419/5	Ken Fortzer and N Ngawaka-Fortzer	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
168	1424/1	Ken Fortzer and N Ngawaka-Fortzer	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
169	1446/5	Michael O'Shea	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
170	1449/1	Michael O'Shea	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
171	1450/3	Helen E Mabey	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
172	1477/5	Leslie V C and Beverley M Blackwell	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
173	1478/3	Leslie V C and Beverley M Blackwell	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
174	1494/3	Carol A F Rendle	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
175	1497/5	Carol A F Rendle	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
176	1504/3	Trevor C Rendle	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
177	1506/5	Michael O'Shea	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
178	1508/1	Michael O'Shea	Support	The request to delete clause 7.11.4.2(1).	The reasons stated in the original submission.	Allow
179	1516/3	Michael O'Shea	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
180	1523/2	John Frieswijk	Support	The request that forestry be a permitted use in landform 5 (productive land).	The reasons stated in the original submission.	Allow
181	1524/2	John Frieswijk	Support	The request that forestry be a permitted use in landform 3 (alluvial flats).	The reasons stated in the original submission.	Allow
182	1525/3	John Frieswijk	Support	The request that forestry be a permitted use in landform 6 (regenerating slopes).	The reasons stated in the original submission.	Allow
183	1526/3	John Frieswijk	Support	The request that forestry be a permitted use in landform 7 (forest and bush areas).	The reasons stated in the original submission.	Allow
184	1540/3	David F and Patricia A McCrary	Support	The request that forestry be a permitted use in landform 6 (regenerating slopes).	The reasons stated in the original submission.	Allow
185	1541/2	David F and Patricia A McCrary	Support	The request that forestry be a permitted use in landform 5 (productive land).	The reasons stated in the original submission.	Allow
186	1542/3	David F and Patricia A McCrary	Support	The request that forestry be a permitted use in landform 7 (forest and bush areas).	The reasons stated in the original submission.	Allow
187	1547/2	David F and Patricia A McCrary	Support	The request that forestry be a permitted use in landform 3 (alluvial flats).	The reasons stated in the original submission.	Allow
188	1555/5	Paul and Geraldine Downie	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
189	1557/3	Paul and Geraldine Downie	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
190	1584/1	Diana V Simpson	Support	The request that provision be made for certain activities that constitute normal farming practice to be permitted activities.	The reasons stated in the original submission. Normal farming activities such as those described in the primary submission should be specified as permitted activities, otherwise farming becomes impractical.	Allow
191	1585/3	Diana V Simpson	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
192	1588/1	Alan H Gray and Doreta JA Gray	Support	The request that provision be made for certain activities that constitute normal farming practice to be permitted activities.	The reasons stated in the original submission. Normal farming activities such as those described in the primary submission should be specified as permitted activities, otherwise farming becomes impractical.	Allow
193	1596/1	Gulf Vision Limited	Oppose	The request to make activities such as anti-bird scarers subject to Council assessment under clause 4.	Provision needs to be made in the Plan for normal rural activities to take place as permitted activities. The use of bird scaring devices is such an activity.	Disallow
194	1596/2	Gulf Vision Limited	Oppose	The request to make provision for intrusive and annoying agricultural noise in clause 4.6	Provision needs to be made in the Plan for normal rural activities to take place as permitted activities. Noise from the use of agricultural equipment, from farm animals, etc, is noise from normal activities in rural areas.	Disallow
195	1596/3	Gulf Vision Limited	Oppose	The request to make provision in clause 4.7 for measure of standards for annoying and intrusive agricultural noise.	Because provision needs to be made in the Plan for normal rural activities to take place as permitted activities, there is no need to make provision to measure the noise from such activities.	Disallow
196	1596/11	Gulf Vision Limited	Oppose	The request that Part 9.0 - Hazardous facilities and contaminated land - be reviewed in terms of agricultural use, particularly cross-boundary spray drift/chemical seepage, helicopter spraying, roadside spraying/weed treatment etc.	Control of the use (ie discharge) of agrichemicals is outside the functions of Council, being within the functions of the Auckland Regional Council, which has adequate provisions in this regard.	Disallow
197	1596/12	Gulf Vision Limited	Oppose	The request to make provision in part 9.0 - Hazardous facilities and contaminated land - to require prescription of a "vegetative buffer zone" around intensively farmed land, particularly viticultural and horticultural operations.	Existing provisions in the Plan regarding noise, smoke, dust, etc are adequate for rural areas. Control of the use of agrichemicals, fertilizer, etc is outside the functions of Council, being within the functions of the Auckland Regional Council, which has adequate provisions in this regard.	Disallow

279	1963/1	Anthony S Jury	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
270	1964/3	Anthony S Jury	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
271	1965/5	Anthony S Jury	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
272	1969/5	James W Robertson	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
273	1977/1	Gregory Laird	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
274	1985/5	Martin and Anne Mitchener	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
275	1986/1	Martin and Anne Mitchener	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
276	1991/1	Ben W R Sanderson	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
277	2091/1	Auckland City Council	Support	The request to amend Table 7.1	While the proposed change goes some way towards allowing the private owners of heritage resources the use of their land, it does not fully serve the purpose of the RMA in that the provision still does not properly allow those private owners to provide for their economic well being.	Allow
278	2091/3	Auckland City Council	Support	The request to amend Table 7.2	While the proposed change goes some way towards allowing the private owners of heritage resources the use of their land, it does not fully serve the purpose of the RMA in that the provision still does not properly allow those private owners to provide for their economic well being.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
279	2091/6	Auckland City Council	Oppose	The request to include a new Rule 7.8.5A - Rules for scheduled site surrounds	Overall the provision is opposed as it is unnecessary.	Disallow
280	2091/6	Auckland City Council	Support	The request to include a new Rule 7.8.5A - Rules for scheduled site surrounds	Notwithstanding that the provision is opposed, the provision for some planting, grazing and fencing as permitted activities is supported. Provision should be made for earthworks, forestry horticulture and farm tracks as permitted activities.	Disallow
281	2091/16	Auckland City Council	Oppose	The request to include a new Rule 7.12.4A - Rules for scheduled site surrounds	Overall the provision is opposed as it is unnecessary.	Disallow
282	2091/16	Auckland City Council	Support	The request to include a new Rule 7.12.4A - Rules for scheduled site surrounds	Notwithstanding that the provision is opposed, the provision for some planting, grazing and fencing as permitted activities is supported.	Disallow
283	2123/1	Joseph Waite	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	Provision should be made for earthworks, forestry horticulture and farm tracks as permitted activities. The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
284	2127/1	George Cleverley	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
285	2130/3	George Cleverley	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
286	2132/3	Bernard Rhodes	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
287	2143/1	James W Robertson	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
288	2146/1	D E McGregor	Support	The request that provision be made for certain activities that constitute normal farming practice to be permitted activities.	The reasons stated in the original submission. Normal farming activities such as those described in the primary submission should be specified as permitted activities, otherwise farming becomes impractical.	Allow
289	2152/1	Helen and Michael O'Shea	Support	The request that provision be made for certain activities that constitute normal farming practice to be permitted activities.	The reasons stated in the original submission. Normal farming activities such as those described in the primary submission should be specified as permitted activities, otherwise farming becomes impractical.	Allow
290	2155/1	Michael P J O'Shea	Support	The request to delete clause 7.11.4.2(1).	The reasons stated in the original submission.	Allow
291	2159/1	Helen O'Shea	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
292	2163/5	Helen O'Shea	Support	The request that the Council commit to a balanced approach to planning for heritage and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
293	2169/3	Helen O'Shea	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow

The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
299	2198/5	Shirley Gray	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
300	2208/5	John H Gray	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
301	2214/1	John H and Shirley R Gray	Support	The request that provision be made for certain activities that constitute normal farming practice to be permitted activities.	The reasons stated in the original submission. Normal farming activities such as those described in the primary submission should be specified as permitted activities, otherwise farming becomes impractical.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
302	2216/1	F J and C N Medland	Support	The request that provision be made for certain activities that constitute normal farming practice to be permitted activities.	The reasons stated in the original submission. Normal farming activities such as those described in the primary submission should be specified as permitted activities, otherwise farming becomes impractical.	Allow
303	2219/3	Martin and Anne Mitchener	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
304	2241/1	Richard B Somerville-Ryan	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
305	2254/3	Richard B Somerville-Ryan	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
306	2257/5	Richard B Somerville-Ryan	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
307	2275/5	John G Sutton	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
308	2277/3	John G Sutton	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
309	2280/3	Sandra I Hall	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
310	2288/1	Sandra I Hall	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
311	2314/5	Dorothy M White	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow

No	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
312	2342/5	Marion Davison	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
313	2349/5	David F and Patricia A McCrary	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
314	2361/5	John A Cran and Gillian M Cran	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
315	2405/1	Kylie F Robbins	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
316	2406/5	Kylie F Robbins	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
317	2416/5	Gendie M Jury	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
318	2422/5	Michael P J O'Shea	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
319	2424/1	Marion Davison	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
320	2427/1	Gendie M Jury	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
321	2443/1	Helen M Hill	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
322	2447/3	Helen M Hill	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
323	2456/1	Edward A D and Anne R Scott	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
324	2464/2	Charles and Winnie Blackwell	Support	The request to delete clause 7.11.4.2(1).	The reasons stated in the original submission.	Allow
325	2473/5	Dorothy M White	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
326	2475/1	Dorothy M White	Support	The request to delete clause 7.11.4.2(1).	The reasons stated in the original submission.	Allow
327	2494/3	Michael P J O'Shea	Support	The request to include options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
328	2506/1	Department of Conservation	Support	The request to insert additional text in the definition of "new organisms" contained in Part 14 - Definitions	The reasons stated in the original submission. Biological control organisms can make a useful contribution to the viability of farming.	Allow
329	2506/2	Department of Conservation	Support	The request to Insert a definition in Part 14 – Definition of "Biological control"	The reasons stated in the original submission. Biological control organisms can make a useful contribution to the viability of farming.	Allow
330	2572/1	Gary R Marshall	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
331	2574/1	Gayle PJ Marshall	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
332	2650/1	Anne Woodley and Peter Muir	Support	The request to remove Rule 10c.5.2 from the Plan.	The reasons stated in the original submission.	Allow
333	2660/3	Ron Hallie and Raewyn Hewitt	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
334	2662/1	Ron Hallie and Raewyn Hewitt	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
335	2672/3	Owen Martin	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
336	2678/1	Eric W Culpitt	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
337	2702/3	Kazuko and Shigenori Itoh	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
338	2703/1	Kazuko and Shigenori Itoh	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
339	2724/2	Sean O'Shea	Support	The request that cleaning farm drains annually of weed and sediment be as of right.	The reasons stated in the original submission. Provision should be made in the Plan for normal farming activities such as drain clearing to take place as permitted activities.	Allow
340	2724/3	Sean O'Shea	Support	The request that creating tracks on larger blocks be permitted and flexible.	The reasons stated in the original submission. Provision should be made in the Plan for normal farming activities such as creating and maintaining farm tracks to take place as permitted activities.	Allow
341	2725/2	Sean O'Shea	Support	The request that clearing manuka to maintain pasture be permitted.	The reasons stated in the original submission. Provision should be made in the Plan for normal farming activities such as scrub clearing to take place as permitted activities.	Allow
342	2725/5	Sean O'Shea	Support	The request that scrub cutting be a permitted activity for landform 5 (productive land).	The reasons stated in the original submission. Provision should be made in the Plan for normal farming activities such as scrub cutting to take place as permitted activities.	Allow
343	2772/4	Lynnette L Gilmore	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
344	2773/1	Lynnette L Gilmore	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
345	2776/1	Susan Barker	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
346	2778/1	Ruth Foreman	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
347	2784/3	Robyn Bailey	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
348	2787/1	Joana Davies	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
349	2790/3	Joana Davies	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
350	2792/1	Robyn Bailey	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
351	2825/3	Susan Barker	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
352	2832/1	Peter Sinclair	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
353	2837/3	Peter Sinclair	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
354	2841/3	Heina Petzold and Eva Busch	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
355	2844/1	Heina Petzold and Eva Busch	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
356	2863/1	Ellen M Curreen	Support	The request to Amend clause 7.11.1 Issues	The reasons stated in the original submission. The issue as it stands at present doesn't adequately recognise the rights of owners to enjoy their properties and maintain their economic, social and cultural rights in respect of the properties.	Allow
357	2867/2	Ellen M Curreen	Support	The request that Great Barrier farmers are able to clear and utilise regenerating scrubland that was once fertile pasture.	The reasons stated in the original submission. Provision should be made in the Plan for normal farming activities such as scrub clearing to take place as permitted activities.	Allow
358	2869/1	Ellen M Curreen	Support	The request that all present references to the control of tree (manuka and kanuka) on Great Barrier be removed from all planning texts	The reasons stated in the original submission. Provision should be made in the Plan for normal farming activities such as the control of scrub to take place as permitted activities.	Allow
359	2916/1	R A Walden	Oppose	The request to Retain table 7.1 and enhance the levels of control proposed.	The level of control provided by the Table is inappropriate in farming situations.	Disallow
360	2944/1	Robert Barker	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
361	2948/1	Russell L Duurloo	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
362	2951/1	Pieter De Jonge	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
363	2955/1	Roberta C Pereira	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
364	2957/3	Heather Glover-Laverack	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
365	2959/1	Heather Glover-Laverack	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands. Disallow
425	3378/3	Tony King-Turner	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
426	3387/3	J S Clarke	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
427	3389/1	J S Clarke	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
428	3512/1	John Smeed	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
429	3521/26	Auckland Regional Council	Oppose	The request to add the words 'enhancing and restoring' to clause 3.2.3(5)	It is not necessarily appropriate to enhance and restore natural features on private land.	Disallow
430	3521/26	Auckland Regional Council	Oppose	The request to add the words 'enhancing and restoring' to clause 3.3.4(5)	It is not necessarily appropriate to enhance and restore natural features on private land.	Disallow
431	3521/26	Auckland Regional Council	Oppose	The request to add the words 'enhancing and restoring' to clause 3.4.3(1)	It is not necessarily appropriate to enhance and restore landscape character and natural features on private land.	Disallow
432	3521/37	Auckland Regional Council	Oppose	The request to amend clause 3.2.3(5)	It is not necessarily appropriate to enhance and restore natural features on private land.	Disallow
433	3521/40	Auckland Regional Council	Oppose	The request to amend clause 3.3.4(5)	It is not necessarily appropriate to enhance and restore natural features on private land.	Disallow
434	3521/43	Auckland Regional Council	Oppose	The request to amend clause 3.4.3(1)	It is not necessarily appropriate to enhance and restore landscape character and natural features on private land.	Disallow
435	3521/44	Auckland Regional Council	Oppose	The request to amend Part 4 to add a general rule making any activity within a certain distance of a permitted (having an ARC permit) drinking water supply bore a restricted discretionary activity.	Sensitive activities should normally make provision for their own buffer areas, and should not impose restrictions by way of buffer zones on other land owners.	Disallow
436	3521/46	Auckland Regional Council	Support	The request to amend clause 4.12 to permit in all land units and settlement areas, the eradication or control of all pest plant or animal species included in the Auckland Regional Pest Management Strategy 2007 - 2012 and associated lists relating to the Hauraki Gulf Islands.	The reasons stated in the original submission.	Allow
437	3521/68	Auckland Regional Council	Oppose	The request to amend clause 7.11.2(4).	It is not necessarily appropriate to maintain and enhance species and ecosystems on private land.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
438	3521/89	Auckland Regional Council	Oppose	The request to amend clause 10a.6.5 so that the construction and relocation of buildings, including buildings used for any other activities listed in the table be a restricted discretionary activity and subject to the assessment criteria in Section 11.5: Buildings as Restricted Discretionary Activities.	The construction and relocation of buildings ancillary to permitted farming activities should be a permitted activity.	Disallow
439	3521/90	Auckland Regional Council	Oppose	The request to amend Table 10c.1 to reduce the building coverage in Landform 5 (productive land) from 1000m2 and that any one building be not more than 250m2.	The proposed limit is unduly restrictive for productive farmland.	Disallow
440	3521/111	Auckland Regional Council	Oppose	The request to a amend clause 10a.25.3(5)	It is not necessarily appropriate to enhance and restore natural features on private land.	Disallow
441	3523/1	Oraplu Farm Partnership	Support	The request to delete Rule 10c.5.2.	The reasons stated in the original submission.	Allow
442	3529/1	Hans J Steingass	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
443	3531/3	Hans J Steingass and Gabriele Greban	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
444	3534/3	Mathias Kroger	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
445	3538/1	Christine M Batten	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
446	3545/3	Martin Zamyatin	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
447	3556/1	Steven Roigard	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
448	3563/3	Steven Roigard	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
449	3575/3	Marta Fisch	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
450	3626/1	Molly L Moore	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
451	3629/3	Molly L Moore	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
452	3640/5	Helmut Bender	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
453	3641/1	Helmut Bender	Support	The request to delete clause 7.11.4.2(1).	The reasons stated in the original submission.	Allow
454	3645/3	Helmut Bender	Support	The request for the inclusion of options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
455	3652/3	Hanne Sorensen	Oppose	The request for a definition of significant landscapes / viewshafts with clear linkages to rules to protect same.	The proposals take no account of the rights of the private owners of land with "significant landscapes / viewshafts" to use that land.	Disallow
456	3672/3	Carole and Neil Wright	Support	The request for the inclusion of options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
457	3684/5	Carole and Neil Wright	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
458	3687/1	Carole and Neil Wright	Support	The request to delete clause 7.11.4.2(1).	The reasons stated in the original submission.	Allow
459	3715/26	Waiheke Island Sustainable Development Group	Oppose	The request for the introduction of a part 15 into the text titled - Sustainable Management Operational Methodologies	The proposals are inappropriate and do not in fact promote the sustainable management of the natural and physical resources of the Hauraki Gulf Islands.	Disallow
460	3735/3	Robert and Carol Comer	Support	The request for the inclusion of options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
461	3756/5	Robert and Carol Comer	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
463	3761/3	Maree Stanway	Support	The request for the inclusion of options regarding compensation to residents and landowners affected by heritage schedules in respect of loss of economic value, loss of rights and loss of use and enjoyment of affected properties.	The reasons stated in the original submission. Land owners should not be required to carry the cost of society's desire to "protect" certain resources.	Allow
463	3763/5	Maree Stanway	Support	The request that the Council commit to a balanced approach to planning for heritage protection to ensure that current landowners and residents are not unduly penalised by the heritage provisions in the Plan.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
464	3787/2	Richard B Somerville-Ryan	Support	The request to recognise that where the Plan's provisions seriously affect property owners' ability to use, develop and enjoy their properties for their economic, social and cultural well-being, the Council has an obligation to compensate those affected	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
465	3787/3	Richard B Somerville-Ryan	Support	The request to include compensatory principles and mechanisms in the Plan to offset the regulatory regime where owners' rights are curtailed, severely restricted or extinguished.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
466	3787/4	Richard B Somerville-Ryan	Support	The request to offer compensation for landowners whose asset values are negatively affected by the Plan's regime.	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
467	3788/4	Richard B Somerville-Ryan	Support	The request to offer compensation for landowners whose asset values are negatively affected by the plan's regime with particular reference to landform 6 (regenerating slopes).	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow
468	3790/2	Mrs Geraldine Downie	Support	The request to recognise that where the Plan's provisions seriously affect property owners' ability to use, develop and enjoy their properties for their economic, social and cultural well-being, the Council has an obligation to compensate those affected	The reasons stated in the original submission. The Plan needs to include provisions that ensure that land owners are not required to carry the cost of society's desire to "protect" certain resources.	Allow

No.	Submission Reference	Name of Submitter	Support/ Oppose	Summary of particular part of Submission that is supported or opposed	Reason for support or opposition	Allow / Disallow
