

**Path types**

- Formal formed path**  
(asphalt (may have shell mix), asphalt with bluestone edging, asphalt with terracotta drainage tiles, recycled brick, crushed limestone)
- Informal formed trail**  
(mounded compacted gravel and scoria. Sections of timber boardwalk through flax planting)
- Unformed connection**  
(mounded with mown or long grass, visual markers and artworks)

**Feature elements**

- Footprint for performance stage**  
(temporary stage setup integrated with native wetland planting)
- Custom bench seat / seating wall**  
(integrated with artwork on art trails)
- Standard seat with back**  
(style chosen for park e.g Metropolis)
- Steps**  
(refurbished existing and/or new)
- Visual marker**  
(may be sculpture/ interpretive information)

**Existing Vegetation types**

- Existing vegetation**  
(existing mature tree collection and hedges)
- Remnant orchard**
- Tree management and planting zone**  
(planting zone to supplement existing tree collection)

**New Vegetation types**

- Avenue tree**
- Orchard tree**
- Native slope planting**  
(small shrub + grass species)
- Native wetland planting**  
(flax and small grass species)
- New garden planting**  
(parterre and display gardens)
- New shrub planting**  
(includes hedges)

**Legend**

- Proposed visual art centre with restaurant/ café, function space and toilets
- Homestead garden with marquee lawn, paved gathering area and parterre gardens
- Restored original steps, re-contoured terrace and new steps on eastern axis
- Upgraded 'port cochere' entrance with pick up/ drop off zone and new car park (10 spaces)
- Proposed new entrance to northern wing of homestead, new toilets and café courtyard
- Display gardens with edible and traditional planting, and limestone chip/ recycled brick paths
- Restored original steps on northern axis aligned with prominent knoll.
- Car park entrance to be designed to accommodate rootzone of scheduled trees
- New car park (70 spaces) with innovative stormwater drainage design and orchard trees
- Lookout to Maungakiekie (One Tree Hill) with stone seating walls cut into slope
- Compacted gravel path with steps to traverse steep slope
- Pedestrian entrance from Budock Road with bluestone wall
- Playscape environment with remnant farm elements developed around the concept of 'footprints'
- Gated service entrance from Mt Albert Road
- Native planting on northern slopes with views to circular oak tree feature on Moore property knoll
- 3m width lowland perimeter path made of compacted gravel and scoria with sections of boardwalk
- Harekeke (NZ flax) and ti kouka (cabbage tree) representing former Beveridges swamp- providing renewable resource for flax weaving and other traditional art forms.
- Tree collection and art trails with mown grass paths, permanent/ temporary sculpture, and artworks integrated with seating and interpretative elements
- Open space remains undeveloped for passive recreation and events, and protection of views
- Performance stage footprint with power supply - temporary stage setup integrated with flax planting and orientated toward amphitheatre with stone wall seats and trees planted for shade (comparable in size to Tahaki Reserve at base of Maunagwhau- Mt Eden)
- Pedestrian and service entry from Korma Road for maintenance and event set up/ pack down.
- Entrance orchard planting and temporary path connection to carriage drive under tree canopy- to protect open space vistas from homestead
- Tree avenue and original carriageway drive- reinstated at 4m width with asphalt and terracotta drainage tiles.
- Pedestrian entrance from Herd Road with bluestone walls, steps for steep slope and grass terracing.
- Lookout with stone seating walls, native planting, and interpretive artworks signifying Whataroa Pa and the 'axis of ancient pathways' connecting the maunga's visible from the park
- Lookout to Manukau Harbour, Mangere Mountain and Maungakiekie, with stone seating walls
